Com: Abida Ali:

Maulid Mohamed: I think mine, I will speak English and I will read this paper.

Com: Hassan Ali: ma koral ba

Com. Abida Aroni: 5 minutes, because you will read it

Maulid Mohamed:

Structure – A system of government. We should retain the presidential system of government.

- **The Executive** - Presidential powers should be limited and these powers should be taken away appointing the Vice President, appointing Ministers, appointing of Kadhis. He or she should not be above the law also.
- **The Judiciary** – Kadhis and Chief Kadhis should be given powers and they should not come under any other court. Kadhis should be elected by the Islamic top scholars from every zone of Muslims. Kadhis should deal with Islamic related cases, such as, adultery, inheritance, marriage, murder cases, theft. Kadhis Courts should also be located upto Divisional level. Chief Kadhis Court at District level, there should be appeal court to deal with all matters pertaining to Islamic cases.
- **The Legislature** – The people should be guaranteed the right to recall the Member of Parliament in case of not serving his or her people as per requirements, not being development conscious.
- **Procedure of recording the MP** – The community will forward their problems to the nearest complainant office at Divisional level or at any elders and these elders will pass this complaint to the parliament and the parliament will send commissioners to collect the views of the people. And if the majority of the community proves that he or she is not responsible, views will be taken back to parliament, if found guilty, the seat will be declared vacant and a member of parliament will be elected.
- **Local Government** – Local Government should be empowered like the Provincial Administration, since they are more closer to the people. Mayors and Council Chairman should be elected directly by the people. Treasurers and Clerk of County Council should be elected by the people also.

Now these are the conditions of being a Councillor:

1. He should be a former leaver.
 2. Chairman should be a graduate.
 3. Clerk should be a graduate also.
 4. Treasurer should be a graduate.
 5. Mayor should have a Masters in any field.
- **Basic Rights** – The constitution should protect security. Where there will be no any insecurity in any place of North Eastern Province and they should provide enough security for the children.
 1. **Health** -We should be given enough and free medicine and building of hospitals up to Sub-locational level.
 2. **Water** – Water should be located or provided in every 2 km. in a certain place. Maybe in Modogashe we want after every 2 kms. there should be provision of water.
 3. **Education** – There should be free and fair education from Primary level up to University level, and we want it to be located in North Eastern Province. A certain University should be located in one of the Provinces in North Eastern.
 4. **Livestock** – We are the major pastoralists in Kenya and yet there is no Market Board at all. So we want the constitution to guarantee the Livestock Marketing Board for our animals. And we also want a factory to be located in one of the Districts of North Eastern. Livestock factory may be hides and skins, ghee, meat, horn/born also. There should be a factory for all these products and by-products and it should be located in North Eastern Province.
 - **The National Budget** – We need the constitution to allocate 10% of the National budget in every financial year to enable the Northern Province catch up with all parts of Kenya.
 - **Trust Land** – This ‘Trust Land’ name should be scraped and replaced with ‘Community Land’ whereby, the community will own the land and its natural resources from the land.
 - **Citizenship** – There should be ID cards and this issue of screening cards should not be there. It must have its own registration office up to Divisional level. We do not get passports in an easy way and hence we want the constitution to guarantee free passports to Northern people and should get passports from our own Districts.

Emergency cases should not be there and hence, we want all destructions made by the Government to be compensated. The constitution should remove 'Indemnity Act' and should replace with 'Human Rights Act'.

That's all I have. Thanks.

Interjection: inaudible. Idris

Idris: Yes ni mimi.

Translator: I think he can speak English siyo?

Com. Abida Aroni: He can speak Swahili.

Idris: Ok. Hapana.

Idris: Mimi ningependa kugusia vitu vitatu. Kwanza kitu ya kwanza, ni pande ya mifugo. Sisi tuko na mifugo ya kutosha ambayo imenona sana hata mifugo yetu iko na afya kuliko sehemu zingine za Kenya. Na tunaitaga hiyo mifugo yetu hata kama ni ngombe tunaitanga boran na munasikia kila mara ikishinda kwa ASK show kuliko mifugo zingine. Kwa hivyo hiyo mifugo tuko naye tumekosa bei na serikali ya Kenya,.....

Interjection: Huyu mama anazungumuza inaudible

Idris: haikutegea sisi njia dhabiti ya kuuza mifugo yetu. Kulikuweco na KMC. KMC haikuwa imetegewa sisi wafugaji (pastoralists). Haikuwa, it was not meant for the pastoral communities, ilikuwa imetegewa, imejengewa Athi River for Settlers, ranches siyo ya Pastoralists. Sasa hiyo ya Settlers wakati Ranchers wa Settlers wameondoka Kenya, ime-collapse. Lakini sasa sisi pia tulikuwa tunafaidika na hiyo KMC kwa ajili sisi pia tukipeleka mifugo yetu hatukuwa tunaambiwa kwa nini mumelete, kwa vile walikuwa wanataka nyama, na sisi tulikiuwa tunapeleka nyama. Sasa mifugo yetu ilikuwa organization ingine ambayo ilikuwa government inaitwa LMD – Livestock Marketing Division. Na hiyo pia ime-collapse system na ambayo ilikuwa inasaidia ku-purchase ngombe kutoka Mandera mpaka Mombasa Meat Factory mpaka Athi River. Na hiyo sasa ime-collapse, tunataka serikali ichukue Livestock Marketing Division, kama mnaandika katiba mpya ili tupate bei kwa mifugo yetu. Pia wafugaji wetu livestock traders, wanakuwa restricted within Kenya hawezi kupatiwa import and export licence livestock, wanakuwa restricted a lot of veterinary regulations inasumbua sisi hata tukitaka kupeleka ngombe Nyeri, tunaambiwa mpaka tukuje na ‘No objection’. Tunasumbuliwa hapa barabarani mifugo yetu hawezi kwenda lazima ukuwe na vaccination reports. Vaccination nini? Hizo zote ni njia ya kutesa sisi kupata mifugo, bei ya mifugo yetu. Hiyo restriction yote kwa katiba mpya tunataka sisi tuondolewe.

Mambo ingine ambayo ningependa kuwagusia, ni **system of governance**. Hapo awali, colonial times, tulikuwa na approach kidogo ambayo ilikuwa inalietta umoja katika makabila. Na hiyo ilikuwa the clan leadership system the ‘bogor’. Hiyo ndiyo mimi, vile mimi ninaona, hawa watu sasa wametengana kabisa wananchi hapa wametengana, wakati imeletwa hii Chief na Assistant Chief system, watu hawasilizani na inalete tribal clashes mingi sana. Na hapo awali watu walikuwa wanaheshimiana na kila mtu alikuwa anachukua amri kwa mwingine kwa ajili mtu akilete shida, hiyo mzee ya boma alikuwa anatoa amri mtu Fulani awekwe kwa miti kwa ajili ameleta shida. Punishment ilikuwa on the spot, sio ati kuwastaki kwa polisi ama kufanya nini, ndiyo ilikuwa inalete uzuri.

On federal system, mimi nasema upande wangu, ingaliwa Wasomali wengi wanalegea upande wa federal system. Lakini

mimi upande wangu, ningesema tuko na hatua ambayo mpaka tufikishe. Hatutaweza kwa ajili sisi hatuwezi kujiendesha ingawa wenzangu wana-argue out ati hata foreign aids ile donors ambae inapitia central government ingekuja hapa direct. Lakini I do not foresee that we can manage a federal system kwa ajili mimi naona sisi wenyewe tunalilia saa hii mambo ya barabara, mambo ya shule, hatukufikia hiyo miaka na kila mtu lazima afikishe maturity. Unless tufike sisi kama sehemu zingine za Kenya, tufike kiwango kile wako kwa upande wa maendeleo, sisi hatutaweza kuitana na federal system.

Local Authorities – Mimi napendekza ya kwamba County Council Chairman na Mayor ya miji, wakuwe wanachaguliwa na wananchi. Kwa ajili wakichaguliwa na Councillors, wanakuwa tu wana-report kwa Councillors, na Councillors ni watu ambayo wachache. So, wananchi baadaye ndiyo sasa inabidi kuuza unaona sasa Mayor ama nini hahusiki na maneno yeyote. Mambo yake anakuwa tu kuwakilisha hiyo Council na Councillors wake watu fulani, unaona hata councilors wanakuwa 2 groups, one group might be opposed throughout. Kwa hivyo iko maneno ingine ambayo im

The other thing ningependa kuongea ni hii maneno ya kuandikisha voters. Hiyo ningesema hiyo maneno na maneno ya kuandikisha kipande, na hii maneno ikuwe kitu ambaye inaendelea mwaka bado ya mwaka sio kitu ambaye inatengewa wakati fulani, inafanywa campaign, izungukwe, imalizwe, ambaye iko na deadlines, inatakikana hiyo kitu vile mimi napendekza katika hii katiba mpya, ni kitu ambayo inaendelea throughout the year. Hiyo tu.

Com. Ratanya: Bwana Idris umesema hupendelei sana federal system lakini, ni ipi sasa system ukependelea hapo? Unapendekza ipi?

Idris: Sasa mimi ningependa hii maneno ya uni 3, ningependa ku-improve on the system that is existing by kuwekelea local leadership, tribal leaders, lakini sio federal na hii sisemi uni 3 kabisa na sio federal lakini ningependa ku-improve on the existing system.

Yusuf Halifa Abdir: Mimi naitwa Yusuf Halifa Abdir na nitaongea Kiswahili.

Mimi naunga mkono wale ambao walitangulia ambaye waliongea juu ya dini ya Kiisilamu. Kwanza, sisi watu wa North Eastern asilimia 100 tuko Waisilamu. Tunakata dini ya Kiisilamu itangulie kuliko sheria ya serikali. Hukumu yote ambayo wanatendea watu wa Waisilamu wakiwa Kenya mzima, sio North Eastern peke yake iwe ni dini ya Kiisilamu ambaye inahusika. Awe huru kabisa ya kutawala dini ya Kiisilamu, pande ya Waisilamu.

Ya pili, tunataka mambo ya ambaye kujitawala sisi ndani kwa ndani sio

Ya tatu, hiyo mambo ambaye anaongea Mashehe, mambo ya miraa. Miraa ilituumiza kabisa, kabisa lakini sisi hatujui, na wale ambao wanahusika hawajui kabisa kama waliumia. Hii town yenyewe ya Modogashe kwa mwaka, pesa inayotaka halafu

inaenda Meru, inaweza kuzidi zaidi ya milioni moja na laki nane, wacha mali ingine. Na watoto wetu wako ambao tunashindwa kulipia karo ya shule. Pengine mtu ana shilingi mia moja (100/=) mfukoni, nyumbani kwake hana kitu ingine, badala ya kupelekea watoto chakula, ananunua miraa, anaenda nae mahali ingine. Usiku kama saa sita, saa tisa ndiyo anakuja nyumbani anapigana na bibi yake, anauliza chakula, chakula hakuna, yeye mwenyewe hajaleta chakula, atapata wapi hiyo mama? Hii miraa ipigwe marufuku kabisa. Miraa na pombe iko sawa, lakini afadhali tena pombe kuliko miraa. Wakati wa 1975, nilikuwa huko mahali ambapo panaitwa Durei, karibu huko District ya Lamu. Kuna jamaa mmoja mlevi, ambaye tulibebwa na tractor tukija pahali panaitwa Durei. Alichomwa hapa na msumari (kitakoni), damu yake inatiririka, sasa watu waliona damu inatiririka, hii damu ni ya nini? Anasema, wachaneni na mimi bwana hii ni starehe yangu. Hajui kabisa kama yeye aliumia shauri ya ulevi. Kwa hiyo, maneno yote iliongewa leo, sasa tunataka miraa aisonekane area hii yetu ya Kiisilamu kabisa, hasa North Eastern.

Ya nne, mambo ya barabara iliongewa sana na ni kweli, nyinyi wenyewe mliona. Mambo ya maji mliona wenyewe, na mji huu hatuna stima. Saa kumi na mbili ikifika haukuti mtu hapo, unafikiri kama watu wote walihama. Kama ingekuwa na stima watu wangukuwa na usiku mpaka saa sita. Kwa hivyo Kenya, kama inabadilisha katiba yake na itakuwa kweli, iangaliwe sana hii North Eastern.

Ya tano, mambo ya Chief na Assistant Chief imetuletea matatizo mengi sana. Tunataka sisi wenyewe wananchi watuchague. Yawe mambo yetu kama ya zamani kabisa. Mtu anaitwa mfalme. Chiefs achaguliwe na wananchi kama sivyo, uhalifu uishe kabisa sababu Chief naye, anataka kitu ya kula basi mshahara wenyewe hautoshi. Sasa lazima apate mtu wa kumtafutia chakula. Kwa hiyo, maneno yangu machache ni hayo. Ahsanteni sana.

Audience: Osman Ibrahim ako, Osman Ibrahim mwenyewe huyu

Hosman Ibrahim: Kwa majina naitwa Osman Ibrahim. Nina mapendekezo hapa.

Pendekezo langu la kwanza ni mambo ya Trust Land. Ningependelea katika hii katiba mpya inaandikwa mambo ya 'Trust Land' hii itolewe iandikwe, 'Community Land', kwa sababu hakunatrust land, trust land ya government. Wakenya wengine wako na land lakini sisi hatuna land, land yetu ni ya serikali. Kwa hivyo tunataka hii land yetu iwe ni yetu iwe community land, mambo ya trust land itupiliwe mbali.

Ya pili, Indemnity Act, ndiyo ningependelea affirmative action ya Indemnity Act kama mnajua ya kwamba watu wetu walimalizwa wakati wa emergency kwa hivyo hii Indemnity Act iliwekwa pale ili tusidai fidia ya Serikali wanamaliza maneno

tena wanasema hamuwezi kulipwa fidia kwa hivyo we want affirmative action of Indemnity Act.

Ya tatu, kama mjuavyo sisi ni wafugaji. Tuko na livestock wa ngombe na kadhalika. Tulikuwa gold miners from gold mining turudishwe to charcoal burners na firewood collectors. Sheria kama hiyo Lord Delamere Act, ni njia ya kutuwekea sabotage, ile rasilimali sisi tuko nayo kama watu wa North Eastern. Ya kwamba hii quantitate ya 90 days, hiyo ni kitu white settler amejiwekea, hakuna kwa dictionary ya veterinary. Kwa hivyo Lord Delamere Act should be repealed. Rudi kwa mambo ya media shida yetu ni nyingi sana, umbali na mambo ya maji na barabara, tunashangaa hata airwaves pia ni shida, tumechoka na KBC. Kwa hivyo tunataka media ipatiwe freedom tukuwe sawa na wale wakenya wengine. Sasa kila mara unaonyeshwa tu KBC, Moi anaenda harusi, Moi anaenda mazishi, we are tired of KBC. So we want freedom of media tuate Nation, KTN, etc., hii ni njia ya kutufunga macho na masikio yote. Kama wakenya wengine, kama vile hapo mbeleni nilisema, baada ya kuondoa, ku-repeal Lord Delamere Act, tunataka pia rasilimali yetu ambayo ni livestock vile tumesikia wakenya wengine Coffee Board of Kenya, Tea Board of Kenya, Pyrethrum Board of Kenya, we also want Livestock Board of Kenya iwe registered ndiyo tuweze kuuza mali yetu kama wakenya wengine tusafirishie. Kama Somaliland ama Botswana, inaweza kujiendesha, na Livestock na ngombe peke yake, kwani nini sisi watu wa mkoa wa kaskazini mashariki hatuwezi kujiendesha na mali yetu? Hii yote ni njia ya kutufanyia njama, na tunataka tuondolewa katika katiba mpya. Ni hayo tu ahsanteni.

Speaker: Hamujambo, inaonekana wengi wamezungumuza hapa they were out of topic and that is the reason why because nobody, these people were not civic education.

Com. Abida Aroni: Excuse me, we want to correct you, every person here has a right to say what they want and theyso, please go to the point and give us.....

Speaker: Thank you. Eh here in North Eastern Province, the main gate is emergency. When you enter North Eastern Province, there is something called emergency. We want this emergency not to be removed. Today you are here you are by emergency law. The other thing the government calls the nomadic areas trust land, this word has disturbed us very much, and we want it to be redicated we do not want to hear any more trust land. Yesterday when you came with the beautiful vehicles here and some of you and we thought may be you were allocated to the area and we were going to

go away from the area because the land is called trust land, anytime anybody can be given. We want the land to be called community land. We do not want to hear trust land anymore.

The other thing, there is something that has been brought to us and the other Kenyans are not having. That is screening card. We want it to be taken back by the owners, from our houses to the office. We do not want to see otherwise we are not Kenyans. We want the screening card to be returned we do not want the screening card.

The other thing, weekdays, civil servants and parastatal workers, there is something called weekend. It is Saturday and Sunday. We Muslims, Friday is our weekend. So we want it to be called Friday, Sunday. Sunday Christians go the Church, Friday we go to the Mosque. We leave alone with Saturday we go for duty.

The other thing, I support majimboism because we have been waiting 39 years for development we did not get, we were left alone. We want to try whether we can develop our Province as such we want to have majimboism.

The other thing is, in this area and Turkana, education level is very low and we cannot compete with Kisumu. So we want to be considered for employment and for colleges according to our education level. The other thing is colleges intake. We want it to be allocated according to the Provinces, because in Nairobiare there The poor has no room. So instead, the government should stand for that according to the department concerned, and they should divide the intake according to the Provinces and the Provinces to divide for themselves because the poor have died and the big man is always surviving in Kenya.

The other thing is factories. Factories should be developed according to the resources. Example like tea, where tea is grown, the factory should be there. Meat - where meat is coming from is where the meat factory should be like KMC, North Eastern Province, we want the meat factory to be brought here.

The other thing, it is my suggestion and my likes that the Parliamentarians' salaries should be reduced. From President to Vice President, Cabinet Ministers, Assistant Ministers and MPs, their salary should not go beyond the 30% because the economy of the country has fallen down, and the reason is because these people are earning a lot. And as such, instead of their high salary, I would have preferred the salary to be reduced and whatever is deducted from them taken to Local Government for development of the rural area and to Civil Servants in order to stop corruption. The other one, still I am in parliament, parliament should be dissolved according to the plan meant for it before not to be added. Parliament should be dissolved according to how it was planned for, should not continue, according to me. Muslims should have equal share with Christians in the parliament as Cabinet Ministers because, in the parliament, we have a few Muslim Cabinet Ministers. May be only 2 Hussein and Sharif, the rest are Assistant Ministers. So we want to have equal share with others. Still in the parliament, the parliament representatives who have been taken to parliament, if injured in Nairobi, they should be paid their benefits and

treatment after those two actions, the government should pay the constituency concerned. For example like our MP here he has left us healthy,while he was on duty late hours of the night he was injured. He lost one of his limbs and almost his memory and actually we rushed from here and met him. Now it is good he was treated by the government, well and good. Maybe he was paid very little benefits, but the constituency that he came from, people are still shocked, we want to be paid on behalf of him and not him alone, anybody injured in Nairobi, any parliament representative the government should stand for their security.

Maybe the last, Bank interest and Post Offices. As Muslims, in the country we have a problem, because that interest is prohibited in Islam and it should not be compulsory to Muslims unless those who wish to be deducted from or to be added for any interest, We are Muslims, we want to remain as we are we want interest not be added according to us because we cannot keep off from post we cannot keep off from bank these are very important resources and as such, we want to be considered according to our wish as Kenyans. I will not continue, thank you.

Com: Hassan Ali: Zainab Mohamood.

Zainab Mohamood: Bismillahi Rahmani Rahim, nafikiri nitaongea vile nimeandika kizungu, ama pia naweza kuongea Kiswahili, you will translate for them. Ok. There is no need. Mimi naitwa Cllr. Zainabu, nominated Councillor, Kanu. Kwanza nawasalimia Commissioners na wageni wamefika hapa. Baada ya salamu ningependa kugusia jambo fulani ambalo ni muhimu sana wakati tuko hapa North Eastern.

Elections

1. Wakati sisi tukiwa wanakenya sehemu ya North Eastern, tunapata matatizo sana juu ya elections za Kenya. Hasa nikigusia juu ya North Eastern, ningependa katika katiba mpya, niseme elections should be fair and free.
2. Nikiendelea juu ya hizo elections, the days of the elections should be extended, not only one day but it should be two days.
3. Transportation should be strongly given to the people who are going to vote for the members of parliament or civic, because normally people get problems in the transportation. Some people who are in the rural areas they get problems of transportation because they are nomadic people who are moving from one place to another. Also, polling extensions should be extended, increased actually.
4. The other one I would like to touch is about Mayors and the Chairman elections. This should not come under the Councilors, but they should get their votes actually from the people of the area. People should give them their votes. They should search for their votes from the people.
5. The other important thing I want to talk about is education in our area. The education in our area is very low and very poor because, people in this area have faced a lot of problems like the and many other problems because of the drought. We have many dropouts in the schools especially when I touch this, I am talking on behalf of girls. There are many girls who have dropped from schools they do not continue with their education we want to support women in this area and we want education to be valued in North Eastern, especially girls. Girl-child education should be encouraged.

6. The other thing I want to touch is about women problems in this area. Actually in other parts of Kenya, women are given nomination during the elections. We know the women in this area are not given elections in the parliamentary seat neither in the civic. The last election we had only 3 women in the whole area and this time we want women should be given chances in the parliamentary and the civic. When I touch on the Administration, we want women Chiefs in this area to encourage women of this area so that they do not drop out of school. Women will have more interest in the schools, so women should be supported highly in the new constitution review.
7. The other thing I want to touch on is about disabled people in this Province. The disabled people in this area have a lot of problems. We want the government to take very serious action against this to assist these people actually, and give them all their rights in this Northern part which is the forgotten land in this country. We just call ourselves Kenyans, but actually we are not getting the rights due as the other Kenyans.
8. The other important thing I want to touch on is also health. We have a very big problem about the health. These days in our hospitals there is a problem which is increasing, and because of poverty our people they do not have money to go and get medicine and when they go to the hospital, there is this matter of saying there is cost sharing. Somebody who has no cup of tea this morning, will go to hospital when they have got malaria and when he goes there he will be asked get the book, get 20/= for this medicine, all this. We want free medicine, we want free facilities, the Government should take action in and put more pressure in this for forgotten land especially in health and education. That is all from my side.

Translator: question bey ku qabta

Zainab Mohamood: xaye

Com. Abida Aroni: I want three clarifications, please note them down.

Zainab Mohamood: Ok.

Com. Abida Aroni: You want 2 days for elections in North Eastern. I want to know why, why you are proposing that. (ii) You are saying girls are dropping out of school, you want them to be encouraged. Why are they dropping and what sort of encouragement do you want? (iii) Then, you would like to see more women nominated, I assume by political parties so that they can vie. Now, people are supporting affirmative actions for women, people with disability and minority groups, what is your view? If you have.

Zainab Mohamood: Yes, I have. Why I was asking for 2 days of elections to be increased is because the number of voters are very many and when day time they cannot vote because of lack of transportation, maybe the mother who was coming to

vote was not ready, she had labour pains, she might be ready on the 2nd day. Many problems are arising there, nomadism because are moving from one place to another. So, as my decision, I just preferred we put 2 days.

When I go back to girls dropping from school, it is because parents in this area do not support their girls in the school, they normally say when a girl becomes 15 years old she has to get married. So any girl in this area believes that when she reaches Std. 8. she will be married. That is a guarantee from her parents. We want to discourage that. We want girls to be educated, we want girls to become future leaders.

The women role in this country is very poor. So, we want more women representatives in this country. In our area Northern, because of our religion, most of the men believe that a woman cannot become a leader in the Parliament or in the Council or even as a Chief. They normally believe in their culture, that is not in the religion of the Islamic. So, we would prefer the Government to assist us not only in Northern but also in the Coast, because where Muslims are, we have this problem.

Disabled, the disabled are people who cannot move and are not free people to move like us in the streets. Like somebody when he is going to an office, he has to see a friend in the 7th floor. There is no lift, so that guy cannot climb those stairs, he needs a lift, he should be considered, he should be given the first privilege in this country. And that is my opinion. Thank you.

Com: Hassan Ali:

Ebla Haji Aden: I am called Ebla Haji Aden and I am a Member of Lagdera Constituency Constitutional Committee. Here are my views.

On citizenship - Citizenship should be one, by birth, one parent Kenyan citizen by naturalization, where one should have been Kenyan resident before 12th December 1963,. Should be able to invest in the country or should have educational level above 1st degree or specialized skill. There should also be promotion of dual citizenship.

Political parties – Formulation of political parties should be regulated by the constitution, parties should be financed equally, Kenya should be a unitary Government with strong local authorities.

Constitutional Supremacy – Constitution should be amended through referendum certain parts in the constitution should be above parliamentary powers, eg. life of the parliament and the Presidential powers, legislature, voting age be 18 years, parliamentary candidates be 35 years and above, moral and ethical qualifications be introduced, MPs and presidential candidates should be married people, parliamentary service commission should regulate salaries for MPs, there should be proper representation of women in parliament (at least a third of the members, I mean women, the parliamentarians), that is where affirmative action should come in.

Land and property rights – The pastoralists of North Eastern Province should have ultimate ownership of their land, i.e. I am in support of communal land ownership. The Government should have the power to compulsorily acquire land for purposes like defence, exploration of natural resources, e.g. minerals. Inheritance of land and property should be in accordance to the

Islamic teachings. Ownership of land by non-citizens should be exclusively for specialized reasons vetted by the state and beneficial to local residents and the nation at large. May be I would to expand on this issue. Land we know that land is static, it does not change, but the population increases day by day. We know that Central Province there is no even a piece of land which is empty. If we just keep it free and it is not owned by the community, what will happen is that people might come to this end and because of the nature of our lifestyle, since we are pastoralists, we might have problems because we might not be able to move and therefore, that is why land should be regulated by the elders and communally owned. Men and women should have equal rights to ownership of land.

Cultural, ethnical and regional diversities – Ethnical and cultural diversity contribute to national culture and should be promoted and maintained. Ethical and moral standards captured in our culture should be maintained as well.

On environment and natural resources – The use of rivers upstreams and positive subsequent negative on the residents downstream should be addressed. That is why we have floods all over when the dams are full what happens is that they just try to release the excess water and that begins as a problem. Both the Government and the Local Authority should have power to enforce laws on the protection of the environment. Natural resources should be equitably shared by all the Provinces, such that no Province is left out, like ours here. They should be owned by the state, but part of revenue accrued from them should be given to the local authorities.

Electoral System – Election date should be certified in the constitution so that it does not favour any part or anybody. Candidates should not pick nominations from another party after failing to win nominations from one party. MPs defecting (end of A side).

Presidential, Parliamentary and Civic Elections – Presidential, parliamentary and civic elections, should take 3 days in North Eastern Province simply because of the impassibility of the roads we know very well that some of us who participated in the other general election, that some places were not reached and because of that there should be extension to 3 days. Presidential candidates must obtain 25% of votes in at least 6 provinces, that is my view.

Executive – Should be moral and ethnically upright, should be a graduate, should be above 45 years, should be married, should remain in office for 2 terms each, constitution should provide for its removal from office for misconduct. Provincial Administration should be removed and local authorities strengthened. I am not for the idea of Provincial Administration right from above to the Assistant Chief.

Local Authority – Mayor and Chairman be elected directly, to remain in office for 2 terms of 5 years each. Councils should not operate under Central Government. Here, what happens is that all the Councillors are elected but all the powers invested upon the Clerk who is a public servant. Residents and local authorities should not have powers to dissolve the local authority.

On education – The government should provide free and quality education to all primary and secondary education. Bursary should be awarded against poverty index and not enrollment. Currently, we have very few students in our schools and the little we are enrolled, what we get is always very little. So we are also asking for a positive discrimination whereby or an affirmative action whereby our bursary is disbursed or awarded according to poverty index because we know in this Province 85% of the people are below poverty line, one person cannot afford one day meal. Students should not be forced to participate in school activities that might contravene their religious and cultural norms. I am for the idea of promotion of

girl-child education, girls should be motivated through bursaries to reduce the current disparity which are there. Girls usually drop out of schools due to early marriages and that way should be discarded. That is all I have.

Interjection: (inaudible). Abdulahi Ibrahim.

Abdulahi Ibrahim: My name is Abdulahi Ibrahim, Headmaster Modogashe Secondary School. I thank the commission for coming as far as here to listen to the views of the people of this area. Mine, I will start with education and I am for the idea that a special consideration should be made for the people who live in the former MSD because economic problems and the history of social-political descrimination has had adverse effects on education. The situation has caused the leaders of this Province to agitate for literacy programmes in schools, instead of quality education. There is no single school in this Province with all the basic facilities available to create efficiency in learning. The only national school in the region Garbatula, has collapsed due to inaccessibility and other economic problems. To make matters worse, it is less that 50% of the school-going children who attend school in this region. It is therefore my contribution to the CKRC, that a special department in the Minsitry of Education be established with all the funds needed to arrest the situation by one, making sure that all children attend school as it is their fundamental right. Two, quality education is provided in schools in this region. And three, bursary be awarded on the basis of poverty and not enrollment because, this Province is the worst hit Province in the country yet it receives limited funds in bursaries.

On the office of the Kadhi, the Judiciary, in this case the office of the Kadhi should be made independent. The current Kadhi is a toothless dog and the country laws supersede Islamic sheria. The Chief Kadhi is an appointee of the Government and is there to serve the interests of the Executive, not the Muslim population of Kenya. Muslims in Kenya are known to be having 3 different days for celebrating the same Idd, because it is the Chief Kadhi who dictates when the Idd should be prayed, as dictated to him by the Executive and not the sighting of the moon, as Islamic tradition should have been. I therefore recommend to the CKRC that one, the Chief Kadhi and all other Kadhis selected by the Muslims. Two, the office of the Kadhi should be made independent and three, the Islamic sheria be applicable in certain sections by the Muslims In which case the sheria will have the upper hand than the laws of Kenya.

Government policies towards ?NFB. It seems the policies of the government since independence were oppressive to the people of the ?NFB. Infrastructure was developed in areas where the economy was always good as in other parts of Kenya. Certain areas enjoyed a tarmacked road, a railway line and an airport at the same time whereas the ?NFB has got not 10 kilometers of the said. The Government therefore always improved the lives of the have, and the have nots graduated from poverty desperation and the Government was so embarrassed in that situation that it was forced to grant relief food to the people of the NFB. Relief comes during emergency but in our case, relief is brought from January to December every year, that is because of the very bad situation. It is time the Government changed this policy, and we see an equitable distribution of national resources and the economically affected areas receive a large share of the national cake in the new constitution that will

come up, so that they can catch up with the rest of the country. Lastly, since the future constitution will have involved all Kenyans, any amendments to it should involve the citizen and we do not want the situation where the powers of one person like the President or the Prime Minister just change what has been created by all Kenyans with things called decrees. Thank you.

Com. Abida Aroni: You want Muslims to elect the Chief Kadhi and the Kadhi, how do you propose thatdo that? Then you like the sheria to be applied in certain areas asdo you have any thoughts on what areas you

Abdulahi Ibrahim: Thank you. In the first case as for the election of the Kadhi and the Chief Kadhi, I will propose that every district where Muslims live given the opportunity to present delegates and these delegates will come up with the proposals for the Chief Kadhi Elect at the national forum. As for the Kadhi at the local level, should be elected at the District level and the Muslims will be coming from locations all over the district, in form of delegates to appoint who they think will be their Kadhi because the delegates will include religious leaders, Imams and even all classes of people in the society.

As for the second question, there are various areas where the Muslims think it is very important where religion comes in. For example, one case which has been of serious concern in this Province concerning school activities should have been the issue of drama, and the Muslim leaders all over the Province have always agitated for the situation whereby girls are not forced to participate in drama and the Muslims are given upper hand in who or what they should do in their schools and their areas. And in certain situations also freedom has been allowed for everybody in the Muslim dominated areas such that there are things like clubs, discos, bars and very immoral activities like prostitution allowed. So in such cases, I request the constitution that will come up to include a situation whereby, Muslims will be given all the powers to create a Muslim-friendly environment, in areas where they live.

Com. Ratanya: Mr. Abdulahi, this is on amendments of the constitution. You have mentioned that people should be involved in any type of the amendment of the constitution. How do you propose that one to be organized?

Abdulahi Ibrahim: I am particularly concerned about a situation whereby one person in the name of the President or a Prime Minister is given enough powers or excess powers and then he can change the laws. Like in this Province there is what was called the emergency laws and these were things that were just passed by one or two persons, but I do not mind a situation where Parliament comes in to change or to amend. If possible also, I would have wanted everything to be in form a national referendum.

Ali Sigat (Chief): I am Ali Sigat a Chief Ilal Location. The problem of this Division as we said, speaker to speaker mentioned about water problem and I am also supporting that idea. In brief, Modogashe Division consists of three locations and none has any permanent water. The water we are using as is what you can see here, untreated, and everytime most of the patients from

this Location of this Division, all the time they are diagnosed as typhoid cases because of untreated water. It was only last year, when the community of this Division smiled for water when they got funds from Australian Development Agency. Whereby, a 19 kilometer Location was surveyed by maji geologists from Nairobi house and they said there is water here. Unfortunately, after that fund had been used, it was reported that the water is not existing. So the community is just silent still looking for water. About water I am leaving there.

The other problem is, the community of this area are pastoralists, and from time to time, the community are shifting from one place to another. So, concentrating on education has become a problem. I am supporting or suggesting, Nomadic Boarding Schools to be established at least in every Division. So that the children stop shifting from one place to another. That is why KCPE results in North Eastern, generally Garissa you see all the time we are below, simply because the children are shifting with their parents from one place to another looking for water. So, the only way to achieve the motive of the Government or education style is that Nomadic Boarding Schools. That is one proposal.

The other thing is destruction of natural resources by URCCR at Dadaab Location. You know, we up at Dadaab, we just camp at Dadaab and URCCR given contracts/tenders so that they can go and look for firewood. Whereby, they are given the licence to go and do business on the trees, so tree cutting has become one of the common things of earning for the inhabitants of that area. So at least now, when you go in Dadaab Division, you see a lot of deforestation and it has even come now so close to Modogashe Division. Now they are you know, doing business with tree cutting. So, this issue of firewood should be stopped so that we do not have another problem causing deforestation.

The other thing is, very little is known to Kenyans about North Eastern Province, about Garissa District, about Modogashe Division at Simply Kenya press or mass media has no communication with the inhabitants in this Division. The only communication we have with the world is through BBC. KBC will not report anything concerning North Eastern Province, unless we have VIP visitors. All the community problems existing in this area are not known to Kenyans. So the problem of this area is the time when you can hear KBC talk about North Eastern, is the time when we have very important persons visiting our Division or Locations. So we wanted at least, the mass media to talk about the problem of the community of this area, so that other Kenyans, or even World Donors can help us on some issues.

The other thing is the community of this area. We have so many children who are orphans due to tribal clashes, whose parents have died and they have no property and nobody taking care of them. I could suggest that we have a lot of rehabilitation centers established in this area.

The other thing is Kadhi Court is not doing what it was supposed to do in Islamic law. Females are discriminated when inheriting property in this Province. The property is taken by men. So many girls have come to us when we are in the location level and telling us this problem. Telling us, "I have not been given anything on my fathers property", so that girl is left helpless.

So Kadhi court is not doing anything for Islam as far as property inheritance is concerned. It must have a say over it, otherwise it is not doing the way it is supposed to do because females are also supposed to get equal rights like the men when they inheriting their father's property. In fact, we are openly discriminating ladies and they are not benefiting at all.

On the health side, we are completely we have also problem with medical, we have here only one health center, serving 4 Divisions. And whereby here right now, you will not see any emergency tray when we go to hospital. We have seen so many mothers, maternal cases, dying here because of not getting assistance from anything. So, I could suggest that at least something should be done, leave alone only treatment, even emergencytray should be kept at the health center. Thank you.

Com. Rantanya: Bwana Chief, there is something you have said about firewood. You say that this issue of firewood should be stopped. Do you have alternative for your people where they can get fuel?

Ali Sigat: What I am talking about, is the refugees. There are so many methods of cooking food instead of ordering people to go and cut trees. So many lorries day by day at dadaab people are given licences to go and cut trees. Thank you.

Com. Abida Aroni: I have two questions, (1) Being a Chief in other parts of the country, we have been told about the position of village or clan elders and the kind of assistance they give to Chiefs, do you find them useful in this region? (2) Then on the issue of the Kadhi's court, according to your statement, the Kadhis are not doing much to all the citizens, now how do you see us improving the Kadhi's court so that we can see justice being done to everyone?

Ali Sigat: I have understood the question of the Kadhi, what about the other.

Com. Abida Aroni: Now in some parts of Kenya, some Provinces that we visited, we have been told that apart from the Chief and the Assistant Chief, there are village elders or clan elders who assist the Assistant Chief and the Chief to implement their work. I am asking whether you have them here and what you think about them.

Ali Sigat: Clan elders are very important to us and there is no time when the Chief or assistant Chief can perform his duty without support of the clan elder. So we have high regard for them. The other thing, we Muslims we have respect for the Kadhi, but the work he is supposed to do, he is not doing so we need somebody who will take his work seriously and when people are inheriting property and the report is taken to him, he should take the necessary action. Otherwise he should not leave the issue of inheritance to the elders alone or at least to some other religious guys in the market. Thank you.

Com: Hassan Ali:

Abdisitar Sheikh Mohamed: Ahsante sana bwana commissioners na wnanachi wote. Mimi ni Abdisitar Sheikh ni mzee wa mjiSabana local NGO. Nitaongea Kiswahili. Ile ninataka kusema, ni juu ya vile tumeteswa katika hii serikali. Sisi Wasomali wakati tulipata uhuru hakuna masikini katika Somali. Na Serikali ya Kenya, ili tuwe raia mema walimaliza ngombe, ngamia, na mbuzi halafu walituweka kijiji ili tuwe raia wema. Unajua mtu tajiri atakuwa na kisirani, lakini kufanya masikini utakubali kila kitu. Ilikuwa siku yetu ya kwanza kukula maindi. Na tunataka hii serikali ambayo ilitufanya sisi maskini wakati huo mimi nilikuwa mtoto lakini ninajua vile tuliteswa. Wacha ile ya emergency, juzi mimi nilikuwa Councilor wa mji huu, 1992.

Wakati tulikuwa tunasherehekea Jamuhuri day hapa, ngamia walikuwa wanamalizwa hapa. Na hao ngamia walimalizwa walikuwa kama ngamia 3,000. Serikali ilipata hiyo habari, yule Chief alilete repoti, alikuwani Chief wa Bandan, huyo Chief, alifutwa bila haki. Unajua alieleza MP wa area, wakati alieleza MP wa area pia alikuwa Chairman ya Garissa County Council, alitueleza sisi wanasiasa. Ile maneno iliongewa kwa bunge, wajumbe wote walikuja hapa wameshuhudia. Serikali ya Kenya walitoa Minister for Livestock wakati huo alikuwa Shikuku, alishuhudia hapa Assistant Minister for Livestock. Wakati alipeleka ile maneno kwa serikali, serikali ilituma John Keen kutoka Office of the President, ameshuhudia. Sasa tulimwambia ile ngamia yenu imemalizwa na Ukimwi, sio malizwa na risasi sababu serikali imetudanganya tena ilisema hiyo maneno ni ya uongo, sasa imekuwa aibu kwa serikali iliandika majina ya ile mali yote ilikuwa inataka kulipa, badaye serikali, iliyona hii maneno ni shida sababu hii risasi ni daily. Serikali ilipatia loan ya kununua risasi, risasi walimaliza na ile mali ya nchi. Sasa serikali gani anajiletea maskini? Sasa wakati anaona hii maneno ya aibu, Moi alisema pelekeni hiyo, pelekeni chakula ya maskini. Mimi nilikuwa Councilor wa area niliambiwa watu wako ni ngapi ambao walikuwa maskini wale ? Tulituma ile list magari ilikuja hapa walimwaga tu hapa maindi. Sasa hiyo sio haki, na sisi wenyewe mimi kama Councillor karibu ku-shift, kwa ajili ya hiyo maneno. Sisi kupitia nyinyi kama ni commission ambayo wanatafuta kubadilisha katiba kama ni kweli, sasa ile Chief arudishwe kwa kazi, alifutwa bila haki na alipoteza na yeye mwenyewe yuko

hapa na yeye watoto wake wanasoma mimi..... Na kila mutu anajua huyo chief alifanya kazi ya maana sababu serikali aliandika yeye uchungaji, na uchungaji kusema, kulete ripoti.alieleza mjumbe maneno ya mtu wa siasa anafutwa on the spot, ilikuwa hapa tu na yule mtu alimfuta aliitwa Njue alikuwa PC. Hiyo si haki na sisi hatuwezi kukaa kwa emergency na watu wanasema ati tuko na serikali tuko huru, hatuna uhuru hapa, mpaka saa hizi hatuna uhuru, we are not like other Kenyans. Tulipewa screen kwanini tunagawanya kama Kenya ingine na hakuna screen katika Kenya? Ile mtu alilete screen alikuwa Haji. Haji alisema juzi Wajir, hii ilikuwa na maana ni mimi ndiyo nili-propose. Sasa anataka kuchimba choo na yote ituchome, na bado hata Haji hakuna mtu anasikiza yeye, yeye ndiyo alilete. What justice is there? Tuko na haki gani katika hii nchi?

Ile ingine, sisi ni wafugaji, KMC inatengezwa. Kwa nini KMC haijatengenezwa mahalif iko mifugo? KMC ilitengenezwa mahali ya Samaki. Si kila mtu kama Samaki itengenezwe Kisumu na kama ni ngamia inatengenezwa Garissa ama Wajir? Hatuna haki katika nchi hii, kama nyinyi watu wakutengeneza katiba kupitia katiba, tunataka sisi kwanza tujulikane kama mali ya Kenya.

Ya mwisho, kuna watu wanakuja kutafuta pesa na wanahonga serikali ya Kenya, wanapitia Minister for Energy, wanalete sumu kuweka nchi yetu. Tulikuwa mahali ya takataka na sumu. We lost over 300 people in Gorova one of them was my sister, my own sister. Naweka sumu hapa Gorova na mtu anaitwa Prospective Petroleum Company alipatiwa/ali-sign contract na serikali ya Kenya. Tulimaliza ile utajiri katika North Eastern ngombe ilikuwa Gorova, leo huwezi ona ngombe Gorova lakini utaona mifupa. Hiyo tunadai serikali ya Kenya na hata ilecontract ilikuwa naitwa mtu ambaye anasomea hiyo kazi hata pia ilitengeza hapa Central na Habaswein na mahali mingi katika North Eastern. Sisi tuliikuwa mahali ya kumwaga takataka na kuweka sumu. Ile sumu inaleta cancer, magonjwa mengi na miaka kumi ijayo, tulisikia ile itakufa ni zaidi kuliko ile ilikufa sababu hawa madaktari wataalamu vile waliandika ripoti yao. Na hiyo ni kitu imejulikana sisi tunataka kudai serikali haki yetu. Kwa hayo machache, nasema ahsanteni.

Interjection: Any question? Omar Hubane, Abdulahi Rashid.

Abdulahi Rashid: Kwa majina ninaitwa Abdulahi Rashid. Ningetaka kupendekeza kwamba katiba ikirekebishwa, irekebishwe na kura zingine asilimia 70. Na part ingine iwe limited kwa hawa wabunge, kwa sababu hiyo katiba ya mbeleni ya Lancaster house, ilibadilishwa kutoka State House Executive for his own interest. Kwa hivyo ningependelea kwamba part ingine kama ya basic rights na zingine hizo ziwe katika national referendum kwa sababu tunafanya kazi muhimu sana hapa na hatutaki Executive wabadilishe kwa their own interest, na nyinyi pia nadhania, haitabadilishwa hivyo.

Ya pili mambo ya media, iwe registered kuwe na freedom of registration. Hapa Modogashe tunasikia KBC, na news ya kwanza Jumapili unajua inasema nini, kwa hivyo tungetaka tuwe na kitu kama KTN, Nation, na Citizen (Citizen saa hizi inashika), na zingine hizo zote, hizo tuwe nazo kwa sababu tumechoka na propaganda ya KBC kwa upande moja.

Na nikija kwa upande wa marginalized, Kushites we are marginalized, we do not have roads, we do not have universities, we do not have water, tungetaka tupatiwe hizo zote. Na kwa mfano ukitaka passport, utaambiwa ulete birth certificate ya mama yako, ya nyayo yako, kama mimi kuna wakati nilitafuta nilipata kibarua kigumu sana. Jambo hilo likomeshwe tupewe haki wote.

Langu lingine ni kwamba nobody should be above the law. Ningependekeza hivyo. Hayo ni maoni yangu.

Jambo lingine ambalo naliona ni kwamba hatutaki mambo ya nominated MP na Councilor, maoni yangu hiyo sababu napendekeza. Naona kama hiyo, I am sorry kuna Madam yuko hapa nominated, lakini naona kama ikomimi vibaya sana, inakuwa favoured. Saa ingine Madama kama yake ilifanyika vizuri, labda pahali pengine inatumika vibaya kama kunyanyasa. Hiyo nominated ingepewa wamama zaidi hata ingekuwa vizuri kuliko hiyo favoured upande mwingine.

Chief Kadhi awe graduate sii kama rubber stamp ya serikali. Awe mwana sheria ambaye amechukua dini ya Kiislamu shahada ya juu, na kuwe na kodi Courts, yaani court 1, court 2, court 3, na tuwe na kotu kwa appeal yetu ya ardhi na iwe independent na mambo ya Executive Judiciary, Executive asitumie, iwe tofauti iwe independent na Executive kwa sababu mara nyingi inakuwa kama ni rubber stamp ya Executive, wanafutwa on the spot wanafanya vile wanataka.

Yangu ingine ni mambo ya bunge na diwani, ni lazima watembelee na wakae sana na watu wao lakini upande wetu hatuna shida.

Na kuwa na sherehe kwamba kama mbunge, anakataa kutembelea ama anakataa kutembea watu wake, kuwe na sheria ya kwamba aitwe na wananchi na aulizwe na akishindwa sana, tunampea vote of no confidence, sheria ipitishwe. Kwa sababu anatoa kitambi zaidi na sisi tunakonda kama gonda zaidi kwa hivyo lazima awe chini ya amri yetu. Life ya bunge isiongezwe, hii December, ikwishe. Na wasishikanishe mambo ya katiba na mambo ya bunge. Katiba iendelee mupatie muda, mpaka mwezi huo munasema mwaka ujao mwezi wa nne ama sita. Wasishikanishe, kwa hivyo katiba hii kutoka Lancaster House saa hizi ndiyo tunabadilisha na inaweza tembea miaka ingine Kwa hivyo life ya bunge isizidiswe December, lakini katiba mupatie muda na isionyeshwe pamoja. Wala hatuchukui jukumu ya Rais next year February wate.... Katiba mpya, kwa sababu katiba sio ya bunge, katiba ni yetu. Sii ya bunge, ama Executive ama wengine, ni yetu. So, nyinyi muendelee na kazi yenu kwa sababu sisi ndiyo tumewaajiri, tax money ni sisi, kwa hivyo hiyo tofauti zisishikanishwe.

Judiciary to be independent from Executive of Judges, the Ministers to be given to an independent body isifanywe na Executive. Detention without trial iondolewe.

Kwa hayo machache ahsanteni. Hiyo ni maoni yangu tu.

Com: Hassan Ali:

Alnoor Ahmed: My name is Alnoor Ahmed Sheikh from Lagdera The new constitution first of all should consider the pastoralim in its preamble. The new Kenyan constitution should have a preamble that expresses the basic nation's

values, philosophies and the visions of Kenyan people collectively. The preamble should capture spirits of the entire constitutional framework stating a..... and physical of the rest of the constitution. The preamble should include an acknowledgement by the pastoralists have suffered descrimation and commitment to pastoralists communities and other resource users who depend on community common resources.

Democratic develoment and the p.....of equality and social justice should be stated in the new constitution in the preamble level. Pastoral commission should be formed in the new commission. This is an independent body to monitor and review the progress in implementation of the pastoral laws and policies and pursue the exisiting national development and recommend amendments to them consistent with the pastoral needs. Since the pastoralists in Kenya are monitored, and are a minority who live in very harsh conditions, the constitution should guarantee them free education, medical, and clean water.

In political representation, like parliamentary seats and civic wards, geographical distance or exteniveness of the area should be considered rather than population.

The consitution should provide for the livestock marketing channels. For livestock, livestock products e.g. livestock marketing, authority should be served. All administration below and officers in the pastoral areas should be the people with pastoral backgrounds. If the President came from the farming community, the Vice President come from the pastoral community and vice versa, while a third of trhe cabinet should be reserved to the pastoralist communities. The pastoral commission should have appropriate interaction with the linkage to the parliament so as to ensure its recommendations are legislated.

On the side of citizenship, the existing law contravenes the conventions on the elimination of all form of discriminatory first on Somalis living in North Eastern. By the use of screen card, the new constitution should abolish the use of screen card in our region. Secondly, it should provide citizenship rights to Kenyan women, married to foreign husbands that is passing d..... to both spouse and the children.

The pastoral land rights – The pastoral concern should be addressed in the new constitution clause by clause. The community based property rights are not given legal recognition by the national laws, they should be recognized and stated in the new constitution. There is still nevertheless, within communities, this is because their rightfrom the community rather than from the state. They are desire their legitimate from the exception by the receptive communities. So, community based rights should be accepted in the new constitution. The real advantage of this approach to one of the property rights for the such community property as pasture is the community is thereby free to define bundle of the rights that exists with respect to specific resource as well as the content of those rights.

The new constitution should give legal recognition to community-based rights so. The new constitution should address

pastoralists as a sensitive issue the national policy framework in Kenya is that it has not treated pastoralists as distinct as a distinctfor systems. The vesting of trust lands upon County Council should be abolished. Instead community based life should be recognized. The new constitution should revise trust lands and government land act.

Social economical basic rights – The new constitution should provide rights of improving life of the pastoralists living in the region by giving service to the low income, house, basic health, education, safe water drinking, should make strategy for the broad day economic growth. The new constitution should provide a minimum of 5% of the national budget set aside for the pastoralists living in North Eastern annually so that they can have the same level with other parts of the country in terms of development. The new constitution should also provide accessed water, food, shelter, clothing, education, all of them free.

The civil political rights – Freedom of movement and association. Freedom of movement – Freedom..... (inaudible) and right of pastoralists ability should be included in the new constitution.

On the side of education lack of technical force, teaching force, increased cost education, scarce instructional materials such as school text books, lack of school uniform, has invariably and jointly led to increased negative access to quality education and In the examination. The new constitution should provide free education and free formal education also.

On the side of food and security, the Kenyan is a signatory to 3 covenants that buying the guarantee of food.
