Com: Hassan Ali: asante sana mzee, Ibrahim Adan

Ibrahim Aden – Ma-commissioners wa Constitution Review na wananchi, asalaam aleikum. Mimi Ibrahim A. Ali ambaye ni Health Worker, ningependa kutoa maoni yangu machache mbele ya kamati.

Ya kwanza, sisi kama mkoa wa Kaskazini Mashariki, katika University, tuko wachache. Tunataka hii cut off point ya University, mkoa wa Kaskazini Mashariki ifanywe grade C badala ya B+, kwa sababu tuko wachache.

Na katika colleges, teachers training colleges, inasemekana vile tumesikia katika radio ni C plain teachers training colleges. Lakini sisi katika mkoa wa Kaskazini Mashariki, hatujasoma, tunataka ikuwe D+. Iwe hata wasichana wetu waende kwa hiyo teachers training college.

Ya tatu, ningependa kurudia upande wa Kadhi. Vile tunajua katiba ya mbele hata hakuna mtu ambaye alikuweco katika mkoa wa Kaskazini Mashariki ambaye aliandika, iliandikwa huko nchi za ngambo, huko Lancaster house. Dini yetu, tunataka hii Kadhi apewe power kwa sababu wakati huu, ana-deal na mambo ya inheritance, marriage na title deed peke yake. Tunataka kama sisi Waisilamu mtu akiingia makosa, aenda pande ya Kadhi kwa sababu huko kama nchi za ingine ya Waisilamu mtu akiiba anakatwa mkono. Kwa dini yetu tunataka Kadhi apatiwe power ya upande wa dini ya Kiislamu. Pia tunataka katiba i-create Assistant Kadhi ambaye akuwe kama sasa tuko District moja peke yaki, kama Divisional Kadhi ama Assistant Kadhi ambaye yuko employed by Public Service Commission. Tunataka hiyo, hiyo post katiba kama inatukubalia.

Ya nne, sisi katika mkoa wa Kaskazini Mashariki, sisi hapana kama down country ambayo 5 kilometers iko kila kitu kwa vicinity, ya kama health. Sisi kutoka hapa mpaka Wajir ni 225 kilometers na District Hospital ni hiyo tu. Tunataka District Hospital ama every Division iwe na Health Centre ipatiwe vifaa kama gari, ili akina mama ambao wako mstuni huko kama Bura ama Tarib wapate chanjo, hao na watoto wao, kwa sababu kwenda mpaka, 150 kilometers, na hiyo vifaa hatuna. Tunataka hiyo ma-health facility iwe equipped kama sheria itakubali.

Ya tano, wafanya kazi wa Serikali wa Kenya hasa wa mkoa wa Kaskazini Mashariki, wako shida kubwa sana. Saa ingine ukiitwa kutoka hapa mpaka Wajir hata huna gari, wakati mwingine unapiga mguu. Tunataka hii mambo ya hardship area, ambayo Serikali inatupatia North Eastern Province, iongezwe na pia wafanyika kazi wa Serikali mushahara yake, ikuwe ya chini ni Kshs.15,000/= ili tu-avoid corruption.

Ya mwisho, kina mama wetu nafikiri hawapati hii kama down-country nchi province ingine, ma-loan kubwa kubwa. Tunataka Serikali ama katiba ikubalishe rural women loans, ili wapate faida, wapatiwe loan ile kubwa sana. Mimi yangu ni hayo tu asanteni.

Com: Hassan Ali: Tafadhali sign kwa hiyo register.

Com: Hassan Ali: Hassan Abdi, Hassan Abdi,

Translator: Hassan Abdi awe? Hassan Abdi Dubat

Hassan Abdi – Salaam Aleikum. The Commissioners and the Community of Sabuli.

I would like to give thanks to the Commissioners and the Community of Sabuli. I would like to give a thanks even to the Commissioners on the hard work they are doing in this place.

First of all, I would like to give something about the Judiciary system of our country.

1. What we want is independent and honest judiciary, so that the instructions from the panel of from a Commonwealth country to be adopted in our country. Lack of transparency is to be blamed in Kenyan judiciary because the President has appointed, every Tom, Dick and Harry to become a Judge.
2. As the people of Sabuli we want the Government to give a priority from the people of North Eastern Province because we came from marginalized land, so that students with D+ are given first priority in the public universities.
3. Commissioners, the issue of extending the life of parliament should be one year because the country is heading into an

era of parliamentary dictatorship.

4. The Electoral Commission, the Public Service Commission and all the other Parastatals and need to bring the stakeholders on board, if we are serving public interest.
5. We want the number of parliamentarians to be increased from 222 to 300 of which women should be given a representative from each constituency.

Lastly, people of North Eastern they are livestock keepers and we need the Government to give priority to the livestock keepers to give medicine to the Veterinary Department because the Extension Officers in North Eastern Province are not doing any duty. We need hides to be put in a better place so that our cattle should not die because of a skin disease. Last but not least, the Constitution Kenya Review Commission will have to treat this as a civic problem. Thank you.

Ahmed Mohamed – Good afternoon Commissioners and wananchi. I am called Ahmed Mohamed and I am(Somali word) Kenya. I will speak on only one issue, that is education. A case of provision or affirmative action in the new Constitution.

1. **Reproduction** – Education is regarded as a vehicle for promotion. Social, economical and political development of a society. Investments open new horizons for both men and women. It provides an individual with power, to make food choices and enjoy better life. It also inculcates knowledge, skill, attitude, and conduct education for living together in peace for personal growth and convenience.
2. **Objective of Kenya in education.** Kenya has a development of education as a primary objective since independence. It was and still is a gadget for human capital development. A critical thing to enhance quality of life. More than a third of the national budgetary resources have been allocated to development of education. However, that development has been road-sided. as perpetuated in equality left behind by the colonial legacy. When some community have tremendous development in education, others had little. Some regions had schools and colleges as early as 1900, while others saw primary schools in 1940.

3. **Education in developed Kenyan regions** – The regions that have experienced education early enough were those that impressed Christianity. A verification from various by various missionaries. Things have also had positive colonial education which promoted education and in a way prepared for a white collar job. To run up the independent, there was one who was called They were calling for an affirmative action in education system. So, we the people of North Eastern are calling for affirmative action in education system of

Interjection - I was saying, don't state the problems but rather state the main points

Ahmed Mohamed - Fine, fine.

4. **Poor quality of education and simplication in North Eastern Province.** The dismall performance of the school in national examinations a serious implication for development in the region has never given students to qualifying for University admissions are very small. The human capital development will not guide you and the result to the necessary professions and technical will not be achieved, such as engineers, doctors, etc., will not be produced. The region will have therefore, to depend upon manpower which may not be easily found or costly to sustain.
5. **The cause of the problem** - What is the cause of the problem? Is a making of the Kenyan Government. The problems are purely as a making of the Kenyan government. It fails to acknowledge that there was disparity in the regions and communities. Some were well developed even under the colonial administration education was valued from regions where one came from. While others like North Eastern and some parts of Eastern known as NMB were under-developed in terms of, they lagged behind in terms of education.

However, a post-independent initiative education development was necessary for this pastoral community. Such initiatives were special treatment and program to invest on education development in the region. The initiative could have been deliberate as a matter of national policy, that is in short could have been development a marshal plan in an affirmative action to find provision of education in the region and give standard approach at the back will either(inaudible) on younger provinces. This could have addressed the neglect of the region by the colonialism.

Justification of the affirmative action initiative. They get another reason why the the above arrangement is justified. The war by the Kenyan government to kuell Somali succession at the moment after independence in 1963, was devastating as noted earlier, and it ended in 1968. Many of the inhabitants were either left destitute or returning from Somalia. Programs for resettlement, rehabilitation and development were rekuired to be put in place by the government. That could have constituted marshal plan of development. As the vehicle for achieving development is education could have

been as center of the marshal plan.

During constitution, recognition of the government failure. The new constitution needs to recognize that a failure by the Government of Kenya(inaudible) as the alternative from national development and prosperity. This community is the poorest, ignorant and sick in Kenya. This is an abuse to human rights as we enter the 21st century. There is a need to have their predicament addressed by the new Constitution. Kenya should be like a human body and when a part is in pain, all parts should be in same. Treatment of an ailing part not in tune with the health of the whole body systems.

The new constitution therefore, should provide an affirmative action and framework obligating the Government to start initiative and deliberate plans to make North Eastern at par with other regions in education in particular, in the light of (inaudible) in Kenya which involves in a question of community and empowerment of women in this Province wish to put forward a case affirmative action on the new constitution. It also wishes to present a case for the constitution to obligate the Government of Kenya to initiate a marshal plan to remove education in the region from intensive care unit and put at par with other regions of the country. Thank you.

Com. Abida Aroni - Now that you are working for a woman's organization, if you can answer you answer, if you cannot leave it. I want you to tell us whether there are emerging issues in this area on sexual and gender violence, bordering on issues like FGM.

Ahmed Mohamed - As you said Commissioner there is FGM being carried out in this area. In this province at particularly this division, there is that element of FGM. Also women in this province are regarded as sex objects, you cannot have equal opportunities with men, with social, political and economical development. So, women in this Province, in particular Sabuli Division, are lagging behind. Therefore, the new constitution should put the FGM to end in this Province. Thank you, unless you have another question.

Interjection - Thank you.

Com: Hassan Ali:(Somali dialect). Abdi Ahmed. Ahmed Noor, Abdi Amin Hareh Adam Mohamed Adam, Abdia Abdi,..... Ahmed Allen, Ahmed Hassana Hali

Ahmed Ali – Thank you the Commissioners. I am called Ahmed Ali and I want to talk about under development in our region. I blame the Government for under-development in our region. And this situation comes into being after the government, the present government has discovered to be impartial towards region. It's unfortunate because, we have a share in national cake for the people. But our contribution had come after the Government (inaudible). By doing so, the people who are not will begin to bring corruption and instability and all that will spoil our people..... The reason for under-development in the country is insecurity, that is in the region of North Eastern. The Government has been (inaudible) that provides security without doing any harm. Formerly we had some emergency network carried out by the military in the country, whereby so many innocent wananchi were killed. To my understanding, the much explanation we were given (inaudible).

Sometimes when we ask for our rights we assume that we have representatives in Paliament but now are they enough to give us our needs? This is because I can recall the President, he can only, the President can unite our own MPs, They can present their views to him through a spokesman. A united people of the region of North Eastern. However, education, health, security will come and bring development. The Government only needs aid toout to bring security to the..... (inaudible). But how can the Government bring enough security to the region? It's when there's enough development because development is when people will be busy. There will be enough job opportunities people will get enough education, health facilities and security. So, the region just grow like each of the other parts of the country where there is development. So, I will only say that much. Thank you.

Interjection – Noor Abdi Maalim.

Noor Abdi Maalim – Many of those who gave out their views were giving one or so points about the behaviour of the Government. Now I am giving out a general view of our Government. Now concerning. about the finance, and the money control it happened that in the reign of President Kenyatta the money appeared to have the picture of President Kenyatta who was the founding father of our country. Now again during the reign of Present Moi it happens to have also the picture of the ruling President. Now it is unfortunate to have three pictures in the reign of various Presidents. So, we should not have a picture of any of them. So we should have also a control on how to produce our money.

Secondly, the establishment, the Government should establish irrigation schemes in arid and semi-arid areas to have either production of Agricultural produce. Majority of the people living here are pastoralists and the land is an agricultural area.

Thirdly, the Kenyan Universities are also very fine like Moi University, Kenyatta University it also has a state or a course based on the meaning of Universities in the country. And then as you know majority of the Kenyan population are youth and since they are the most down-trodden, in terms of employment and therefore the Government should try other ways to boost and creating self-employment for the youth such as loans and other ways. And then finally, I would like to talk about Muslim institutions, in East Africa like in Uganda and in Tanzania. But unfortunately, so they are also Muslims to our country, we do not have an institute where Kenyan muslim student can go for further studies. So, I would like also the Kenyan (our government), to put in mind in the reservation of an Islamic Institute Accounting.

And then finally, even distribution of Government funds in the various provinces. My last opinion is that the(inaudible) and is not found in other provinces in our country. So, we should have a national ID card which will be recognized by our authorities not a matter of having screening cards. Ok, with that, thank you.

Interjection - (inaudible)

Ahmed Hussein - Asalaam Aleikum Commissioners na wananchi wa Sabuli. Now I have opinions touching on so many aspects on our constitution. The following are the opinions:-

1. First aspect is corruption: So far we have this vice which has touched us very much, we need to get rid of it. The best way to get rid of it is to include in our constitution that a corrupter and a corruptee should be charged seriously for them to forget the bribe next time.
2. Now the second aspect is administration. Administration should be free from politics unless it exists the way it is now. From DC through and by chief.
3. The third aspect is gender equality. Here we have women should not be given special consideration so far they are claiming equal rights with men.
4. The other aspect is education correlation. Education can be valued that in every employment the existing in a certain area should be given to the ones educated from that area. Like in our case here such projects will be ruled by the least educated like let us say you have a University graduate, it is ruled by a Std. 7 leaver.
5. The other aspect is Judiciary. Now what I want to talk about it the Kadhi's court should be created at divisional level in Kenya, all over Kenya and should be given the same powers as the Magistrate's court.

6. My next aspect is identification: So far we Somalis we are deserving so many identifications like we have the three cards, birth certificate, the registration card the usual one. Now I am giving my opinion that, the only registration for a Kenyan must be an ID card which is usually given at the age of 18 years.
7. Now about the parliament. Now we know that in our former constitution, the parliament has a great power. Now, the parliament power should be limited in such that, it cannot attack religious aspects and tradition at all.
8. Now, the last but not least, it should be included in the constitution that the Government should provide all social amenities. Thank you.

Abdulai Salat – Asalaam aleikum. I would like to present my views by speaking openly here before you and through a memorandum I would like to present to the Commissioners results. I do not want to talk much because I have at least written whatever I would have views to the Commission and what I have indeed collected from people living around. I have put them in the memorandum and I will present it here. Just a few things I would like to talk about.

Some of them include, the need for the Government to have lands that are arid and semi-arid where North Eastern now falls in, to be re-claimed This land seems to be neglected very much by the Government because of the very very little economic returns in terms of agriculture and if the Government will re-claim this land, it will leave without athat it will be of great help to the Government and the communities living around here.

The second thing poverty, ignorance, disease are indeed one of the things that are of great problem in North Eastern and particularly in the place we are now. Because of these problems, many of its people are subjected to other diverse problems which may indeed include human right abuses, because people may not know about their rights due to the ignorance we have mentioned. Their rights may be abused indeed.

We have also cases where because of that ignorance many Government workers were able to manipulate their own things and make their own ways possible to at least gang up and collect whatever likes they would want from the people. In that I mean, sometimes, security could just decide to instill punishment collectively on family or groups and because of that ignorance, the same family could not take their cases ahead because they did not even know what to do.

Because of the areas I have just mentioned being arid and semi arid, it has not been possible for people to practice Agriculture and that has indeed made them pastoralists today. And as pastoralists, many a problem do they have indeed. Because of the short falls of rain in most cases, they would be forced to shift from their areas of living, to other new areas, which may indeed make them cross borders and in that way, disputes may erupt and that is where now they will have clans clashing, or may be tribes clashing or maybe ethnic groups in other areas and with them clashing. I would therefore

propose the Constitution to provide at least a clause that will enable pastoralists to develop and be free to make movements to enable them take care of their wealth.

The next thing I would also want to talk a little about, some of the suffering people have indeed experienced in this particular part of the country, North Eastern that is. I will mention a few, security operations which may have caused unnecessary loss of life. Economic deprivation and divorce from other parts of the nation. Because the government does not get viable productivity for example in terms of Agriculture from North Eastern, there looks to be a divorce on these from other parts of the country. Some of these problems may indeed have led, and it is true they have led to death i.e. short life span of people in North Eastern and many others. There has been also suffering in terms of ignorance, so I would urge indeed the constitution should include at least a clause to enable the Government to eradicate ignorance, to eradicate poverty in that order, and disease in general.

I would also want to speak on drugs and an inclusion of miraa as a sensitive and a dangerous drug. Just like other drugs are, and I would request the Constitution to provide for the prohibition of that drug in Kenya indeed. Just under that point, I would also request the Constitution to provide clause which would as well prohibit smoking publicly. These are some of the things which people in North Eastern Province look to have taken up as hobbies in most cases and which may have indeed retarded development of this region and groups. I think I would not like to spend much because I have all I would say in a memorandum, I would thank you for listening.

Com: Hassan Ali: Okey, Khalif Adhow,

Halif Adhoo – Good afternoon Commissioners. I would like to present my views on a few errors in the former Constitution.

First one is the error made in appointments made by the President e.g. Judges. They can really believe and say appointments made by the President of Judges is very wrong. Because most of the times the Judges or the Magistrates or the Judiciary section are unfair in handling cases in connection with the Government. We need that appointment not to be done any more by the President. A different body should be appointed to do that.

Secondly, is the issue of opposition parties. Indeed, if you look at the number of the opposition parties in Kenya, they are something to do with 42 or 43 clans. And the number of ethnic groups in Kenya is something to do with 42 clans. So that shows that every ethnic group is having its own opposition party. So the number of opposition parties don't penetrate them. Maybe a number of 5, 2, or 3.

The other issue is on the increment of the life-span of Parliament. That agenda should no longer be there. Increasing the life-span of Parliament should be at bay. That is the number of constituencies in North Eastern Province. Indeed North Eastern Province is the second largest Province in Kenya and it has got the lowest number of constituencies. So, that issue should be looked at and there has to be an increment in the number of constituencies in North Eastern Province. And as for my second last point, is equal distribution of research. For example schools, specifically high schools and primary schools in North Eastern Province, laboratories for example, are not enough. You see a whole high school, there is no laboratory but in most of the parts of this country every school has got something to do with laboratories, while we are lacking laboratories. That shows there is no fairness in the distribution of Government resources.

Secondly, is the currency issue. The value of our currency is now going down. That is contributed by excess manufacture

of money in circulation. That in itself has to be respected. And the last point is the issue of ID cards. That in itself is a real problem to us because we as a minority group, Somalis, we are forced to produce screening cards. For example somebody's parents hailed from Wajir. If you go to Garissa you will be told this is not your mother land go to Wajir District, we won't give you an identity card. That itself is a real problem and a stress to us. Thank you

Interjection - Thank you very much.

Mohamed Mohamed – Salaam Aleikum Commissioners I have my views to present. I have got an opinion and that is about the dual citizenship about somebody who might be a citizen of two countries. We want the constitution to rectify that part because here in our region most people around are Nomadic and may be pastoralists. (inaudible) there's a lot of restriction around. Now, we want people not to be restricted so that they can get all their news from anywhere you want or from any other region so that we do not have more and they have gotten. People might have needs in two different countries and because of restrictions you might not keep all your things in other areas. Now, these restrictions beyond or use other various people. Thank you.

Thank you.

Suleiman Kahiye – Ahsanteni sana kwa kupatia mimi fursa hii. Nataka kuzugumuza kidogo kwa hivyo, nataka kuzungumza juu ya shule na juu ya maji. Nikiangalia maji naona ilikuwa nyingi hapa miaka ambayo imepita. Maji yalikuwa mengi sana. Kulikuwa mto ambayo ilikuwa inapita hapa ambayo ni mto wa Ewuaso Nyiro. Halafau huu mto ilikuwa ni mto kubwa ilikuwa inatupatia kila kitu, maji, tulikuwa tunakata mashmaba na kila kitu. Lakini saa hizi tumeona kuwa huo mto umefungwa. Nataka mtusaidie hiyo mto ifunguliwe huko na ipite hapa. Ya pilo, maji hapa naona imekuwa kidogo sana na hiyo mtusaidie sana.

Pia nataka kuzungumza juu ya shule. Shule nikiangalia mkoa walimu kwa vile wenzangu ambayo walikuwa wanazungumza hapa wamesema yakuwa walimu ni kidogo sana. Lakini naona walimu kila mara huletwa hapa walimu kidogo. Na mashule zingine huletwa walimu wengi sana. Kwa hivyo nataka utupatie walimu wengi hapa. Ingawa tupate elimu zaidi. Hapo tukiona kwa hapa hatuna watoto ambayo wanazungumza lugha ya taifa. Kwa hivyo inatufanya kuwa hatupati walimu zaidi. Watoto wa hapa sio wananfunzi wao wanazugumza lugha zengine kama lugha ya mama yao hata Wasomali. Lakini kile kitendo ambacho kimetufanya hivyo ni kitendo ya walimu. Na nauliza kuwa utupatie walimu wengi sana.

Ya tatu nataka kukuambia yakuwa, magaidi (shifta) ambayo imetufanya kitu kawaida sana. Lakini ugaidi hatuna. Kwa hivyo hawa shifta wanatokaga huko wa-refugee. Tunataka hao shifta wafungwe kabisa na wawekwe mahali mzuri.

Na pia nataka kuzugumza juu ya afya. Afya tukiangalia kuwa hakuna dawa hata kidogo. Dawa ni kigogo, dawa ya wanyama na kila kitu. Tunataka tupatiwe dawa nyingi sana na daktari iletwe nyingi.

Na la mne tukiangalia hapa, ukiangalia hiyo ma-County zingine wako na shule nzuri sana. Kama shule mwalimu wao huenda na gari na kila kitu wanafunzi hata hubwebwa na magari. Na pia tunataka sisi tupate magari, na baiskeli, na kila kitu. Ahsanteni.

Translator – She says that yes, there are cases of domestic violence. Wife beating is a common feature here, but where they beat the wives or they injure them giving them bodily harm, they end up applying the Somali customary law (... - Somali name), they end up resolving the issue at the family level, they slaughter for the woman a goat or something to kind of take care of her pain and that is the end of the case. He is not arrested, he is not taken to court, it is a taboo to be even taken to the Police Station.

Translator – Haya ahsante. Magacaga abaye, okey Zeinab Abdi

Zeinab Abdi niga hathal keiga ma bathi nayi wa iska yar yahai inta hathashey umban awar ahai

Translator – I am old enough. I have lived here for a long time and I remember a time when the river Ewuaso Nyiro used to pass here with a lot of water. We used to come we used to have water all year round. And now all of a sudden, the river has dried up, we do not get any water from the river, it appears that something has happened upstream and therefore this water should be released.

Translator – She says the ability of these women groups, which are 6 in number, is limited. The kind of things they can do is very small like helping each other to pay school fees for the children, maybe for the food for the family. The ability/power of the groups is not very big, they cannot do for example big projects for themselves so they want Government financing for them to be able to do that.

Translator – She is also having a shot at the national women groups, national women elections, at the national level. She mentioned Maendeleo ya Wanawake as one of them but even other associations, and like the Government also, they are not helping them very much. They do not seem to get any support from the national women organization at the national level, and

they feel that those national women organizations should also be scaled down to the grassroots level.

She says that especially for the children who are in schools in Wajir for example, during the rainy season, they are not being funded and some of them are forced to actually foot from Wajir to this place, and with all the difficulties that they pass through.

We could do farming with them, we could buy farm implements and other fertilizers then we do farming during the rainy season. We could have poultry farms where we sell the chicken and the eggs. We could also go to the cloth trade, buy cloth from the market and then sell them here.

Com. Abida Aroni – Now another question although I don't know how Does she feel oppressed as a woman in this country, generally?

Translator – The Government is the biggest oppressor. But other than that, even the lack of opportunities she feels is another oppressive aspect because they cannot for example, have the markets for the livestock or for their products even for the milk that they get from their livestock or their hides and skins. Even the lack of opportunities to do business to generate income is also an oppressive factor.

Com. Abida Aroni- Ok.

Translator – Haya asante. Ya kuhiga, Mogay Ali

Translator – She says that she has been hearing men and even the women talk that we should apply Islamic law that says asking for a particular law of Islamic sharia is not enough, is not the same as having some sharia implemented fully in the communities. And she has given an

example of the Somali community here She says, although they are almost all Muslims, they have been saying that we should apply Islamic sharia, they do not apply it even now.

For example, in the matters of inheritance, which says that when a father dies, it is almost automatic that ladies are not even allowed to physically come to the site where they are distributing animals, even physically be there, forget about being given their own share. The Koran allows them to have ½ of what the man will have, by the Islamic sharia, but even that ½ they are not given, they are not allowed to own that ½ which is even allowed by God, (by the sharia). And therefore says, for the woman the Islamic sharia should be fully implemented in every aspect. That way they will be able to get their inheritance and their share.

Then she says also in education, the Somali communities prefer to take their boys to school and that the girl child is rarely taken to school. In fact the rule is that the boys always go to school and not the girls. Haya.

Mogay Ali wahan kuleyahai marka iyatha ee waha kalo chirto kolki dahalki saa laga digey yaa hathana bilcanti laga diman waye sei gevedan kushegtey akhrisate, kolki laga dinto kasab walakis wa inu kugursatha, hathath ogolan weisith tovan carura hathath dashey wath bihi, tovanka caruka ninka la hari, holihi iyo isagi iyo cilmihi ba isaga iska lee, wah kagavanaye ee tool ee na maleh

Translator – The girl/woman is very much discriminated from the time she is very young, i.e. she is not given an opportunity to go to school like her brother, the boys and then, if the father dies, she is not allowed to inherit her share, the way the boys are allowed to inherit and then when she gets married and then her husband dies, then the brother of the deceased wants to marry her (wife inheritance). And if she refuses to concede to that, she is chased out of the homestead and the brother will actually retain the children and the wealth. All through she is harassed and marginalized.

Mogay Ali - (In Somali dialect) wahana chira marka iyatha ee oo ninka cilmihi lagu leyahai magur san kartit lagu leyahai, islanta cilmehei kategeise nin bei kursan rabta kana marabto waa kasab moogta, markey ditho cilmihi hog ba laga wathi nin kale oo dhevetha ee gursan ama mith kale haga dasho ama lava hadasho ama sathah hadhalo wihi ee gathal kaso gordisato, cilmeheha habath habath hathei ugu duman waa markas sithetha markey cagliyestan laakin iyaga authoritka saran waha waye

iney ninkas nacta kursathey ama koi iyo tovan looc ee usiyo heratha soo geliyo ama ninka ladhilo ama islanta ninkan ee kasab kugursato sasa shericga leyihin wa dakan kain

Translator – She is now talking of this area, the customs that when a man for example dies, and his wife refuses to be inherited by the brother, or to be remarried, they will retain the animals and the children from her and she will be forced to leave the place. Okey now, in case for example now that lady decides to re-marry a person of her choice, the culture and the custom is that, that man who marries her must pay back to the brothers of the deceased, 11 cows, as a form of compensation or some sort of pay back. And if he does not do that, then they will either fight him, they may kill him, **Interjection** – 11 cows? 11 cows yes. Or they will take his life, the married life of that woman is extremely terrible, to the extent that she may end up not living with that man also.

Com. Ratanya – She says that is a culture, a custom of the Somali not the Islamic religion?

Mogay Ali hathath makashith Somalitha bilcantetha lamadhulmo ben waye, sherci laguma dako, shercigi nalo korey athigu wath ooktey ges buu udakan yahai laakin nin na laguma dako, in nagula dako an rabna hatha

Translator - The biggest form of women abuse in this community is the lack of implementation of the Islamic sheria and the education of the community to observe and respect the rights of the Muslim woman which are granted to her by the religion. That to her is the biggest oppression in the life of a Somali community/woman.

Mogay Ali marka shercigi inalo hojiyo, cilmihi dhiniyatha an aath nalogu digo, skulka hata nalogu tharo sherciga neito usuban ila iyo glaska kovath ila iyo universitiga nalogu tharo sherciga naga in rukh uu akhrinayo oo marku engiriska baha, swahiliga baha, mith dhiniyatha digayo uu sogalo oo cilmihi dhinta sithey ugu dakman sasan ugu bahan nahai

Translator – So, she is advocating for the teaching of Islamic sheria even in primary schools and secondary schools. So that people now especially in this part of the community, even the men as young as they are in schools, they begin to learn the sheria, what it says, so that may be as they grow older, they will respect the rights of the woman.

Mogay Ali -wan so gava geveinin sitha awathetha hatha wan so gaviyei mamatha neito waha ithin dehthey, biya intan naga hiran, biyaha sothon sano kasi haga iney hiran yihin ban anaga nala tahai sothon sano haga wei kachira warun

Translator – She says she remembers that the Ewuaso Nyiro river used to pass here and she shares the views given by her sisters before. She thinks it was 30 years ago that the water stopped and I have heard from the men that it was closed by the Boranas, but that is what she fully I believe. I do not know whether that is the truth.

Mogay Ali - aath ban ugu bahan nahai iney biyaha iyaga naloso furo on meshan bera kaga tabcano Uaso Nyiro meshan laagtan Uaso Nyiro baladeha aan bera kaga tabcano, women groupka ingin hathi nalo sari karo dhowlatha hathii ee nahojiso, ee naogato, jiman nalo saro, mesha iyatha mashru an kafurno sababtas oo gajatha sithasa ee noga hesato an umaleyin

Translator – She wants the Wuaso Nyiro River to be allowed to run through its natural course. She says this belt here which

you have seen when you passed here, is very fertile. It is very rich and we can be able to plant a lot of foodstuffs if the river is allowed to go through this place.

Mogay Ali tafadhali marko van ti Uaso Nyiro wan kabahe hal mar ban wahan ku nokon tii gebdaha, gebdaha naga kuthisti yan rabna in lagutho, hathan laguthin na Somali hathan nahai sherciga wei nagu huntahai, casturath bei naga kathan, gebdaha yaryarka markei kou iyo tovanka, lavi iyo tovanka, sathah iyo tovanka sitha down Kenya okaletto ee nimanka sahibo layela nayan anaga marabno, mahan rabna iney weinaato oo iyatha kasnag getha walith ketha marku nin weithiyo iyatha oo saa ugathambeiso marka un lagursatho an rabna, gevedi birath asturath bei kutahai siva logumathein karo sababto ee hathan labireinin nimanka iyaga ka inkaran wei halavi

Translator – She says she supports the circumcision of the girls. She says this is also part of their customs and is also part of the Islamic religion and therefore she will not in any way advocate for the banning of that circumcision.

Mogay Ali sababto ee anaga kuthisti an kutheyne tolmathi wan theiney hatha, matoleino laakin kintirka walaga goin, hathi laga goin wayo dufanketha waye iyatho ee koi iyo tovan chir ee ninka sahib la nokon anaga na dhintain saa maogola

Translator – She says originally before we used to do female genital mutilation. We used to cut the private parts of the girl and we used to sew even parts of her body. That was originally what used to be done. Now she says, there is a lot of transformation, and now we do the ‘Sumna’ which is the small cut of the clitoris and she says that one is our Islamic religion, we still feel that it should be allowed to continue.

Mogay Ali marka intasan kuso gava geveini wah bathan oo shegith aa malihi, istigmarka aan kuchirno hatha islanta aath weithineise uchira, dhath ba hola racayo on dhurka un kuchiro, shifta cawatha magalatha iyo chithka wah kuyeli, dhowlatha Kenya markey dhowlatha thathketha soo dhirte AP, Police, Kenya Army wehey dihi dhathka hola dakatatha umbey korna kathukeini indege, gari na ee ku dhukeini oo dihi shifta aan dhiley gel dahthisa uyala

Translator – She is talking of collective punishment of the community by the members of the security forces. When there are incidents of the banditry activities where somebody is killed or shot and then the Police or Army are sent to do an operation. She says more often than not, they end up coming back to the communities and they will kill and beat up the men and rape the women. They even rob some of the people if they have any money on them.

Mogay Ali marka iyatha ee markei bilcan arkan wei hogeyan, bilcanti vei hogeyan, laac jebka hathath kuwathato kuma thayan, shiftathi dhurka kuchirtey na iyo iyaga isku si isku ma ka daman wahana lagu leyahai waa kuwi ithin ilalineye, guryaha wei baraneyan intey gelan markei ee saso oo kale ee tahai wei nabartan, wah ee nenagu samei neinin sithi shiftatha ugathugan yihin mava laha ba cagta natha

Translator – Security forces are now worse than the bandits because the bandits do not rape women when they come to these areas and the security forces end up raping and robbing them.

Com. Abida Aroni – She would like the teaching of the Islamic sharia to be done in schools so that maybe the men are sensitized, what is the level of the knowledge of the Koran and Suna for women themselves?

Translator – wehey kuwarsaneisa gevedan hathi mahayesha markei bogto athi hathal ee, mehei kuwarsaneysa ee dhumarka meshan chogo musliminta ee mei yakakan hukuk thotha ee bathki sherciga islamka

Translator – She knows them. (Somali dialect)very well the Islamic sharia and they know that they are not given their full rights by the men but says that they can do nothing because it is just the might which is working here.

Com. Abida Aroni - You know what I want to do eh, I want to understand because although I do not want to put it to her directly. She says this thing of FGM, she is very sure what they do is Islamic. Personally I know that it is not. So, I feel that this is something that has been put in their minds. So I want to know whether they actually understand the Koran and the Suna adequate enough. You see how you will put it without ... laughter

Interjection by Translator – No I can't Abida.

Com. Abida Aroni – No because you see she says they know their rights you know she is talking about the inheritance and all. But, I do not know up to what level they really study the Koran, yeah, because that then you will answer my question.

Com. Abida Aroni – Yes.
